

Florida State University
Deemed Export Questionnaire
For Unpaid Visiting Scholar/Researcher

In accordance with FSU's *Unpaid Visiting Scholar/Researcher Policy*, the Host Faculty Member must complete this form when requesting approval to invite a **non-U.S.** person as an unpaid visiting scholar/researcher at FSU, if the visiting scholar/researcher will have access to FSU research laboratories or have access to or participation in any sponsored research. A U.S. person is defined

- as:
- A U.S. entity or a U.S. citizen,
 - A person lawfully admitted for permanent residence in the United States (i.e., a green card holder), or
 - A person who is a protected individual under the Immigration and Naturalization Act [8 U.S.C. § 1324b(a)(3)] (i.e., certain classes of asylees).

This questionnaire must be answered by the FSU Host Faculty Member and may not be delegated to another individual acting on his or her behalf. Attach the completed questionnaire to the *Request to Invite an Unpaid Visiting Scholar/Researcher to Florida State University* form.

1. Will the visitor participate in sponsored research? Yes No If Yes, please answer the following questions:

A. FSU Principal Investigator Name: _____ OMNI or FSURF Project ID: _____

Sponsoring Agency Name: _____

B. Is the sponsored research funded in whole or part by DoD, NASA, or defense industry sponsor(s)? Yes No

C. Is the sponsored research project(s) subject to access, publication, dissemination, or foreign national participation restrictions? Yes No

2. Please specify the types of research in which the visitor will be involved:

- [Basic](#) [Applied](#) [Development](#) Service-oriented

3. Will the visitor be provided access to any ongoing DoD, NASA or defense industry research or research results?

- Yes No

4. *NOTE: This question has changed:* Is there any reason why the research results cannot be published or taught in an official FSU course, or otherwise shared with the interested public (e.g., intellectual property issues, contractual restrictions, or proprietary/confidential data)?

Yes No If Yes, explain: _____

5. Will the visitor be provided access to any controlled technical data or technologyⁱ (hardware or software) furnished to FSU that is proprietary or confidential to a sponsor or third party?

- Yes No

6. Will the visitor be provided access to any controlled FSU-owned technical data or technologyⁱ (hardware or software) that is considered proprietary or confidential to FSU or any third party?

- Yes No

7. Will the visitor be provided access to any equipment, information, or software specifically designed or developed for military or space applications (e.g. night vision cameras, satellite technology, Y-Code GPS, etc.)?

Yes No

8. Will the visitor be exposed to encryption software source code, or otherwise involved in the design, development, or production of encryption software?

Yes No

9. Will the visitor be involved in research associated with select agents, pathogens, or toxins?

Yes No

10. Will the visitor be working with high tech or experimental equipment (e.g. high speed computers, sensors, materials, lasers, telecommunication devices) where he/she will need to understand how it is designed, manufactured, or repaired in the course of the research?

Yes No

11. Specify all labs, institutes, and centers the visitor will visit or work in while at FSU.

12. Will the visitor be working with materials obtained under a Materials Transfer Agreement (MTA)?

Yes No

13. Will the visitor be working with information controlled by a Non-Disclosure Agreement (NDA)?

Yes No

FSU Host Faculty Member Attestation

I attest that, to the best of my knowledge and ability, I have truthfully answered all of the above questions. I have full knowledge of the scope of research work of the visitor.

Signed: _____ Date: _____

ⁱ The technology and technical data that are controlled for release to foreign persons are identified on the [EAR's Commerce Control List \(CCL\)](#) and the [ITAR's U.S. Munitions List \(USML\)](#). Items subject to the EAR include purely civilian items, items with both civil and military, terrorism or potential WMD-related applications, and items that are exclusively used for military applications but that do not warrant control under the International Traffic in Arms Regulations. The ITAR-controlled technical data on the USML relate to defense articles and defense services.
