# Hurricane Michael

- Case Management
  - 248 student contacts over the two week period of storm
  - Over 38% increase in students seeking assistance compared to these weeks last year
  - At least 37 students identified as needing assistance due to the storm
  - In general, 16% increase in new student cases from last academic year, and 19% increase in overall contacts with students

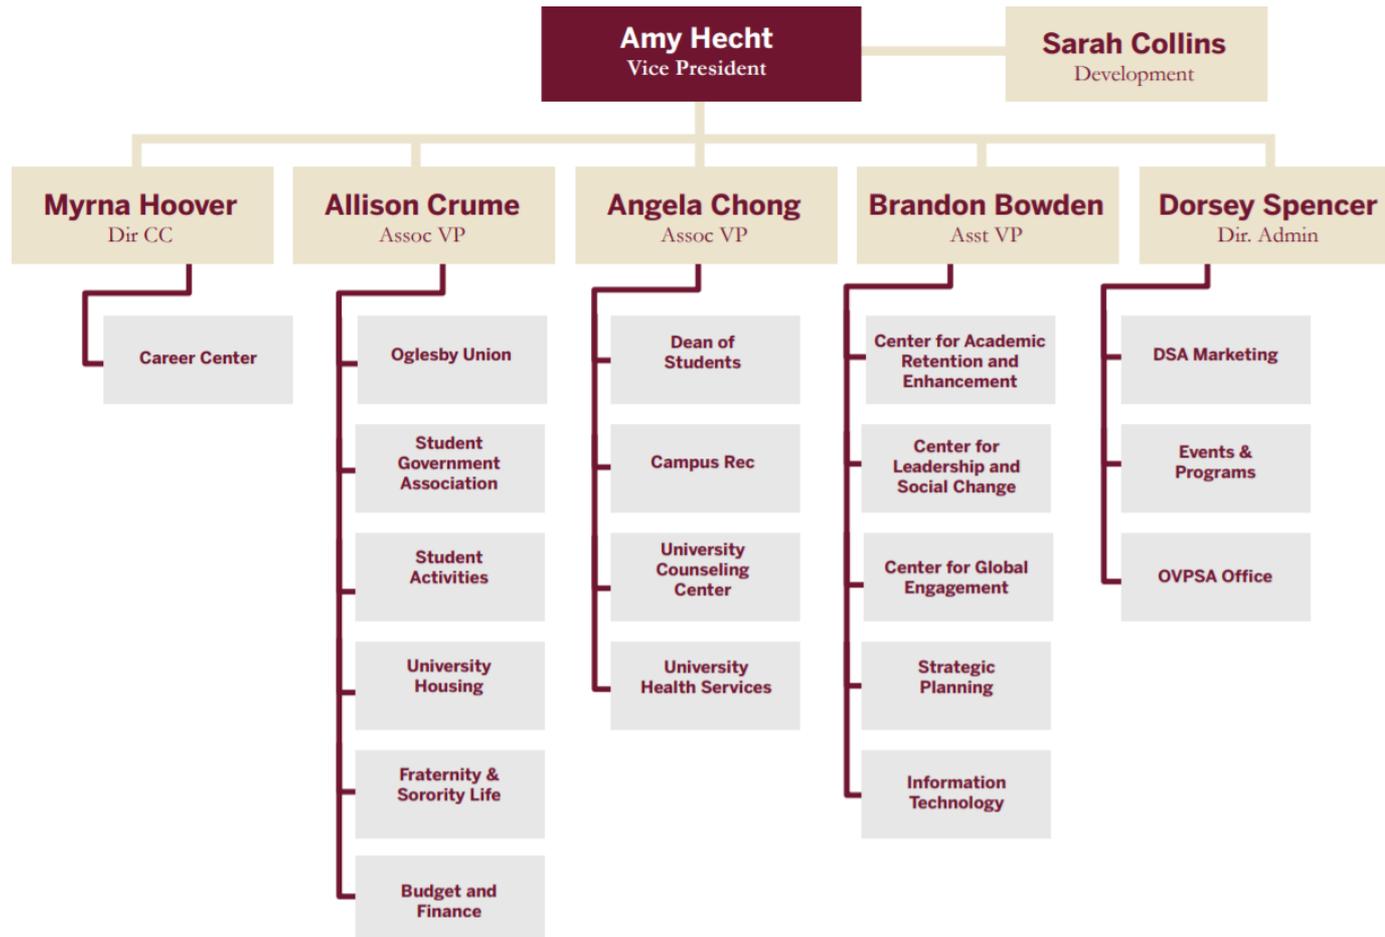

# Student Affairs Strategic Goals

- **Engagement** – How are students connected to FSU? What are they involved with? What do they care about? Do they know faculty, staff, or an older student that is giving them solid advice?
- **Health and Wellness** – How can we help students be healthy and well so that they can be successful at FSU and beyond?
- **Inclusive Community** – How are we creating a community where all of our students feel welcome and a part of Florida State? How do we help students positively engage across difference?
- **Student Learning** – How are we contributing to student growth and learning? How are we contributing to their success, pre and post graduation?
