“As an aspiring attorney interested in civil rights law, the introspective process of writing personal statements, exploring my passions, and breaking down my reasons for applying helped me learn I would love to work on behalf of the people. The intellectual spaces provided by HiA and the Gubernatorial Fellowship will be invaluable as I learn from a variety of renowned speakers, activists, and politicians.”

“After my Fulbright experience, I hope to have a better understanding of Mexico’s public school system in order to compare it with that of the United States.
