

UROP BENEFITS:

FACULTY BENEFITS:

- Hand-select interested UROP students to support your research, who may work with you for 2-3 more years
- Gain undergraduate mentorship experience and help students gain valuable research experience
- Support the next generation of researchers in your field
- Be eligible to:
 - apply for a Materials Grant up to \$1250 (\$675 per student)
 - be nominated for a \$2000 Undergraduate Research Mentor Award

UNDERGRADUATE BENEFITS:

- Helps clarify academic/career goals
- Improves confidence, sense of accomplishment, and self-efficacy
- Develops critical thinking, communication, and other career skills
- Increases researcher identity and supports professional development
- Allows students to see the impacts of their academic interests
- Is fun!

"As a mentor, I am committed to supporting and fostering students holistically as they develop and pursue their interests within our context, whether this be in the classroom or through a research project. My mentoring philosophy revolves around the belief that effective communication is not only essential for success but also for fostering a safe environment where a mentee can be and develop their own whole selves. "

—Sierra Morandi,
School of Teacher Education
2024 Undergraduate Research Mentor Award Winner

CENTER FOR UNDERGRADUATE RESEARCH AND ACADEMIC ENGAGEMENT (CRE)

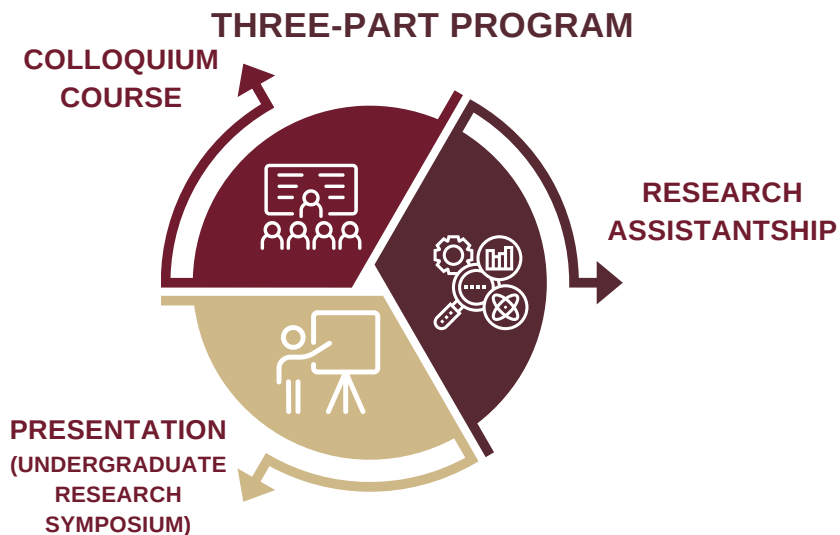

The Center for Undergraduate Research and Academic Engagement (CRE) is leading a growing movement to involve FSU students in the highest levels of academic engagement, helping students take advantage of the very best a major research university like FSU has to offer. From supporting faculty and instructors as they include research and creative projects in their courses, to facilitating service-learning, social entrepreneurship, and research projects with community-based organizations around the world, from programming to involve underclassmen and historically underrepresented students in research and scholarship, to showcasing the work of student researchers through symposia and publications, the CRE works across the university to enhance the educational engagement of our students and the international reputation of our university.

UNDERGRADUATE RESEARCH OPPORTUNITY PROGRAM (UROP)

The Undergraduate Research Opportunity Program (UROP) is an initiative by the CRE to engage 1st-year, 2nd-year, and select transfer students in academic research and offer project support to our faculty, postdocs, graduate students, and campus partners.

RESEARCH MENTOR ROLE:

- Post one or more project proposals exclusively for UROP students
- Provide 5-10 hours of research work for (1 - 6) UROP students throughout the fall and spring semesters
- Guide students in creating a research poster to present at the spring Undergraduate Research Symposium

UROP students participate in a colloquium introducing them to the practice of research, work as research assistants to faculty, and present their Research Mentors' projects and their contribution to it at the annual Undergraduate Research Symposium in the spring.
